

# CHILL PRO

## Corrosion Protective for Chiller Closed Loop

Prevent corrosion, damage, clogged pipes, leakage, scale on closed loop.

Prevent growth of biological on heat exchanger surface which cause of corrosion in pipeline chilled water system

### Area of Application

- ◆ Prevent corrossions cause of leakage on vales, pipes and seals
- ◆ Protect damage of copper, bass, stainless steel and metal in closed loop
- ◆ Reduce mud and clay in chilled water pipes
- ◆ Colorless will not stain in floor, carpet and wall
- ◆ No heavy metals
