

CT-901

Remove Scale, corrosion in cooling tower

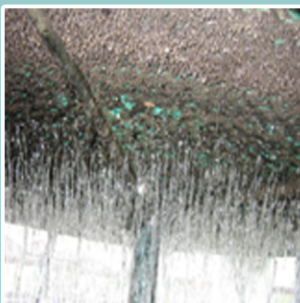

Special formulation for remove scale build up and corrosion in cooling tower system. CT-901 remove scale while cooling tower working. Keep clean of heat exchanger surface and remove mud, silt and clay in water system

- ◆ Content anti scale polymer
- ◆ Content rust and corrosion disperser
- ◆ Reduce mud and clay in cooling tower system
- ◆ Can use in general water supply
- ◆ Direct to use to sump water tank
- ◆ Reduce downtime

Area of Application

Cooling Tower

Evaporative Condenser
