

CT-902

Control algae and bacteria in cooling tower

Special formula for treatment algae, bacteria and slim in cooling tower system.
Prevent growth of biological on heat exchanger surface which cause of corrosion
in pipeline cooling water system

Area of Application

Cooling Tower

Evaporative Condenser

- ◆ Noncorrosive in cooling tower materials
- ◆ Easy to use feed in sump or recirculating system.
- ◆ Reduce mud and clay in cooling tower system
- ◆ Protect algae, slim and bacteria growth
